The Wire Maintenance Plan protects you from expenses relating to the inside telephone wiring in your home. If you subscribe to this service, Schaller Telephone Company will repair or replace any inside wiring that creates a service problem. \$1.50 per month.

Restrictions apply

900 Blocking Services

Information Service Access Blocking is available to all customers. This feature blocks all outgoing 900 or 976 prefix numbers. The initial blocking request is provided at no charge. Please check the choice below if you would like to block 900 or 976 numbers. STC gives you the option to block all calls to 900 numbers dialed from your home or business. The 900 service allows you to reach a variety of long distance and entertainment sources on a pay-per-call basis. However, customers may prefer to have access to these services blocked. Blocking prevents connections to all 1-900 or 0 + 900 dialing. The call-blocking option is available only to those customers who are on one-party lines in exchanges, such as yours, with the central office capable of restricting these calls.

If you would like to submit a request to block 900 numbers, please mark the option below. There will be no charge to you for having the 900 call blocked.

YES - I request that you block access to all 900 phone numbers from my phone service.

NO - I request that you DO NOT BLOCK access to all 900 phone numbers from my phone service.

Customer Proprietary Network Information (CPNI)

To ensure compliance with the Federal Communications Commission (FCC), Schaller Telephone Company will not release call detail information without execution of security measures. Schaller Telephone Company is able to discuss account information with only person(s) listed on the account; therefore, Schaller Telephone Company will provide requested call detail information under the following three circumstances:

- 1) Customer requesting the data approves a pre-established password to release the proprietary information, which we are asking that your password be the last 4 digits of your social security number.
- 2) Schaller Telephone Company may, at the customer's request, send the requested call detail information to the customer's postal "address of record."
- 3) Schaller Telephone Company may initiate a call to the customer's "telephone number of record."
